PROFESSIONAL SUMMARY

Aspiring Software engineer and Full Stack Developer with hands-on experience building scalable web applications using React.js, Next.js, Django, and Django REST Framework. Experienced in REST APIs, authentication, database management, and cloud deployment through industry internship experience and real-world projects.

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL

Frontend & Backend: React.js, Next.js, Django, Django REST Framework, Node.js, HTML, CSS, Tailwind CSS

Databases & Authentication: PostgreSQL, SQLite, JWT, OAuth 2.0, Firebase Authentication

Cloud, Deployment & Tools: Vercel, Render, Git, GitHub, Postman, VS Code

Core Concepts: Data Structures & Algorithms, DBMS, OOP, Operating Systems, REST APIs

EXPERIENCE

Python Full Stack Developer Intern

Mar 2026 – Jun 2026

Sourcesys Technologies Private Limited

Remote

- Built full-stack applications using Django, Django REST Framework, React.js, Next.js, PostgreSQL, and Firebase.
- Developed secure REST APIs, JWT authentication, Google OAuth integration, and frontend-backend workflows.
- Built and contributed to Inventory Management System, Multi-Tenant SaaS Dashboard, and Task Manager System while utilising Postman for API testing and debugging.

PROJECTS

Inventory Management System (*Next.js, React.js, Django REST Framework, PostgreSQL, Firebase, JWT, Tailwind CSS*)

- Developed a full-stack Inventory Management System with role-based Admin/User portals for product, order, customer, sales, and inventory management. [GitHub](#)
- Designed and integrated secure REST APIs using Django REST Framework with JWT authentication, protected routes, and centralized database management.
- Built analytics dashboards featuring sales reports, inventory tracking, order monitoring, and business insights with responsive modern UI.

Multi-Tenant SaaS Dashboard (*Next.js, React.js, Django REST Framework, Firebase, JWT, Tailwind CSS, SQLite*)

- Developed a multi-tenant SaaS platform supporting tenant onboarding, subscription management, payments, notifications, and analytics. [GitHub](#) [Live Demo](#)
- Implemented secure authentication using JWT, Google Sign-In, and role-based access control (RBAC) for tenant isolation.
- Deployed scalable frontend and backend services on Vercel and Render with responsive Admin and User dashboards.

Glaucoma Detection Using Deep Learning (*Python, TensorFlow, DenseNet121, ResNet-18, CBAM, OpenCV, NumPy, Pandas*)

- Developed a deep learning-based glaucoma detection model achieving 99.3% classification accuracy on retinal fundus image datasets. [GitHub](#)
- Trained and evaluated the model using REFUGE2, ORIGA, HRF, and SMDG-19 datasets with advanced preprocessing and feature extraction techniques.
- Measured performance using Accuracy, Precision, Recall, F1-Score, and ROC-AUC for reliable medical image classification.

EDUCATION

Amrita Vishwa Vidyapeetham

Amaravati, Andhra Pradesh

B.Tech in Computer Science and Engineering, CGPA: 8.35/10

2022 – 2026

ACHIEVEMENTS & CERTIFICATIONS

- SAP HackFest 2025** – Secured 3rd place at Amrita Vishwa Vidyapeetham for developing “ArtConnect India,” a platform promoting local artisans through QR-based storytelling.
- Research Publication (IEEE Xplore)** – Co-authored “A Performance Comparison Between Machine Learning, Deep Learning, and Bayesian Approaches for COVID-19 Diagnosis” analyzing AI model performance on chest X-ray datasets. [IEEE Paper](#)
- Coding Profiles** – Solved 50+ problems on LeetCode, earned 5* in both Python and Java on HackerRank.
- Certifications** – AWS Cloud Practitioner, NPTEL Python (IIT Kharagpur), HackerRank Software Engineer Intern, HackerRank Java (Basic).
